PREFACE.

The tables in this volume contain ephemeral matter which it has been found undesirable to include in the text of the *Gazetteer of Loralai.*

Under the orders of the Government of India, the Statistics are to be re-compiled and a new edition of this volume brought out after each census.

The volume can also be expanded by adding to it in the interleaved blank forms any matter that the district and other officers who use it may require to correct or supplement the text in the A volume. This process is to go on till the Local Government considers revision of the text in the A volume necessary, when all supplementary text matter embodied at each periodical revision will be incorporated in the new A volume, and volume B will revert to its original form as a statistical appendix.

Quetta, December 1906.

NOTE 1.—The figures cover various periods ending with 1904.

NOTE 2.—The highland Districts of Baluchistán receive most of their annual rainfall during the winter months, namely, October to March, and the months in this table have been so arranged as to bring this fact out.

NOTE 3.—Rainfall statistics for Bárkhán being not available, figures have been given for Fort Munro, a place in the Punjab which lies 27 miles east of Mír Háji Kot, the principal village in Bárkhán. It may, however, be noted that Fort Munro lies 6,307 feet above sea-level while Bárkhán is only 3,650 feet.

PRINCIPAL ROUTES.

Table X.—PRINCIPAL ROUTES.

LIST OF ROUTES.

I.—Harnai-Fort Sandeman road.

II.—Pishín-Déra Gházi Khán road.

III.—Quetta-Ziárat-Smállan road.

IV.—Sanjáwi-Kohlu-Rakhni route.

V.—Fort Sandeman-Músa Khél-Kingri route.

NOTES.—(1) The route lists are intended primarily for District Officials. They merely indicate the more important routes used by caravans, etc., and make no pretension to be exhaustive. Distances, except when drawn from published route lists, are approximate only. A distance, not taken from a public route list, is marked by the letter *c*, i.e., *circa*.

(2) The following nomenclature has been used :—

Metalled Road
Unmetalled Road } indicates that a road is fit for carts.

Bridle-path indicates a made path fit for camel and other pack transport.

A *track* is unmade, but usually fit for camel transport.

A *footpath* or *path* is ordinarily used by runners and footmen, but is generally fit for horses and donkeys and is traversable even by loaded camels in some cases.

(3) The following abbreviations have been used in this table :—

R. S. = Railway station.
L. P. = Levy post.
T. = Telegraph.
P. O. = Post office.
R. H. = Rest house.
D. B. = Dâk bungalow.

GENERAL DESCRIPTION.

The total distance from Harnai to Fort Sandeman is 167¾ miles, of which 113¾ miles to Murgha Kibzai are partially metalled and bridged. Beyond that the road is unmetalled and fit for wheeled traffic though in places it is rough. Harnai and Tor Khán lie in the Sháhrig tahsíl of the Sibi District; Rézgai, Smállan and Sanjáwi in the Sanjáwi tahsíl of the Loralai District; Loralai, Láhor, Marra Tangi and Zarra in the Bori tahsíl of the Loralai District; and Murgha, Zározai, Lakáband, Bábar and Kapíp in the Fort Sandeman tahsíl of the Zhob District.

Water-supply is good and sufficient at all places. There are bazars at Harnai, Smállan and Loralai, and shops at other places except Rézgai, Láhor and Kapíp. Ordinary native provisions are obtainable at the shops, and fowls, eggs and milk at places where there are dâk bungalows. Previous notice should be given for supplies in larger quantities, and, for places where there are no shops, to the Tahsíldárs through the Political Agents concerned. Contracts for camel carriage exist between Harnai, Duki, Loralai and Fort Sandeman and there is a contract for tum-tums also.

Smállan (Levy post).	24½	102	Dâk bungalow,	A path from Rigora to Púi 14 miles.

GENERAL DESCRIPTION.

The total distance from Quetta to Smállan is 102 miles. The road is partially metalled and bridged and is fit for carts. It is liable to be rendered impassable in winter by snow, specially near Ziárat. At Ziárat Tsari, about 4 miles from Ziárat, it crosses the highest pass (8.600 feet) on any cart road in Baluchistán. The part between Kowás and Smállan possesses interest from the fact that part of it was traversed and described by Richard Steel and John Crowther, English merchants, who made their way from India to Persia in 1614 A. D. They mention Durues or gates of the mountains, Coasta or Kowás and Abdún or Hamadún. In the Wani valley, 4 miles from Chautér, are to be seen the ruins of the three villages known collectively as Seh Kota and separately as the Kárwán Kila, Ráni Kila and Dom Kila. Smállan lies on the Harnai-Loralai cart road, 36 miles from Harnai and 19¼ miles from Loralai. Duki is about 22 miles from Smállan. About 6 miles from Chautér a footpath, said to have been made in the spring of 1897 under the orders of Colonel Gaisford, goes to Púi over the Khatki or Taki hill. From Rigora a track goes to Púi 14 miles. Gandak and Sárántangi lie in the Quetta tahsíl,

Kach, Kánr and Ziárat in the Sháhrig tahsíl of the Sibi District and Chautér and Smállan in the Sanjáwi tahsíl of the Loralai District. *Khánsámahs* are stationed at Kach, Kánr and Ziárat rest houses from May to September every year.

The water-supply at Gandak is small but good, at Kach abundant but somewhat laxative, at other places abundant and good. There are shops at Kánr, Ziárat and Chautér during May to September, half a dozen permanent shops at Smállan and one at Kach at which *atta*, grain, fuel and native provisions are procurable. Fodder, eggs, fowls and milk are obtainable at Ziárat during the season. For other places, previous notice should be given to the Tahsíldárs concerned through the Political Agent. During the season, conveyances (*tum-tums*) run between Kach Railway station and Ziárat, and baggage camels are provided on hire. To reserve them, application should be made to the thánadár of Ziárat. Seats can sometimes be booked in the mail *tum-tum*.

GENERAL DESCRIPTION.

The total distance of this bridle-path is 95 miles; Kapíp lies in the Fort Sandeman tahsíl of the Zhob District, and the stages beyond in the Músa Khél tahsíl of the Loralai District. Water good and plentiful at all places. Previous notice should be given for supplies to the Tahsíldárs through Political Agents concerned.

TABLE XI.—TRAVELLERS' BUNGALOWS.

There are three kinds of travellers' bungalows in the District, namely, (1) dâk bungalows, (2) rest houses, and (3) Political bungalows and Civil and Public Works inspection bungalows. The standing orders relating to them (1905) are reproduced briefly below.

Dâk bungalows and rest houses.

No permission is required for the occupation of dâk bungalows and rest houses. All Government servants, European and Indian, drawing Rs. 100 per mensem and over, náib-tahsíldárs, European and native private gentlemen, native commissioned officers and European clerks are entitled to shelter. Other Government servants in superior service drawing less than Rs. 100 per mensem, as well as European soldiers, are entitled to shelter in a special room set apart in the compound. Sepoys, police menials and native travellers, other than those mentioned above, are entitled to accommodation free of charge in the shelters attached to the out-houses. The charge is R. 1 and annas 8 respectively for each person occupying a dâk bungalow or rest house for every 24 hours or part thereof. Servants of such persons are entitled to accommodation in the out-houses free of extra charge. Each person occupying the special room in a dâk bungalow already referred to is required to pay annas 2, and in a rest house anna 1 for the same period. There is no limit to the period of occupation. Food is supplied in the dâk bungalows at the rates laid down in the tariff hung up in the rooms, unless terms are specially agreed upon. The khánsámah of the bungalow, if required, also cooks provisions furnished by travellers, the charge for cooking including firewood being annas 8 per day for each person.

Travellers halting in the rest houses have to make their own arrangements for supplies and for cooking, but where possible, the chaukidár or Levy man in charge provides on payment wood, *bhúsa*, &c.

Political bungalows and Civil and Public Works Inspection bungalows.

Political bungalows and Civil and Public Works inspection bungalows are houses specially reserved for departmental officers on tour. The gazetted officers of the department to which the bungalow belongs have prior claims to accommodation in the order of their seniority, but, subject to this rule, the officer in charge of an inspection bungalow can lend it without payment to any gazetted officer of any Government department, travelling on duty. Officers in charge of bungalows are also authorised to permit non-officials and officials not travelling on duty to occupy inspection bungalows when available, for a period not exceeding seven days.
